TELECHOICE BROADBAND AND HOME PHONE AVAILABILITY

TeleChoice Unlimited ^ Broadband and Home Phone Bundle services are not available in all areas. The broadband service offered will be determined by what is available at your location. The service offered is ADSL2+ where available. There may also be technical or commercial reasons that affect our ability to connect a service at your location or the speed of our connection. We use the Telstra PSTN network.

EQUIPMENT NEEDS AND SYSTEM REQUIREMENTS

You must ensure that your telephone handset and broadband modem are compatible for use with this service. TeleChoice only provides technical support for makes and models of modem/router equipment supplied by TeleChoice. You must ensure that your computer and systems are compatible for use with this service. You must ensure that the service is compatible for your intended use of the service, including use in conjunction with any equipment not authorised or supplied by TeleChoice.

BROADBAND SPEEDS

ADSL plans provide maximum download speeds up to 20Mbps to eligible customers in selected areas (ADSL2+) and up to 8Mbps in many other areas (ADSL 1) but average speeds will be lower. Actual speeds vary due to a number of factors such as your distance from an exchange, the network connecting the exchange, your equipment and software and internet traffic. Devices connected by Wi-Fi may experience slower speeds than those connected by ethernet cable.
